

One of our local volunteers has spotted your garden!

Scotland's Gardens Scheme is looking for local gardens to open for charity.

Would you be interested in raising money for a charity of your choice, simply by opening your garden? You can also open your garden for one of the three main charities that we support; Maggie's, Perennial and Queen's Nursing Institute Scotland.

Our District team help you to arrange your opening, including publicity. You do not have to pay to be involved.

We are also looking for volunteers who enjoy gardens and would like to join our District Team. We have various roles to suit people with lots of different skills and experience.
